THE ART OF MYANMAR'S SPRING REVOLUTION

Myanmar is one of the world's forgotten conflicts, unleashed by a brutal military coup. "We are the Seeds" is an exhibition by 20 contemporary artists from Myanmar who live in exile due to their activism.

Through their art, they join their country's democratic revolution. Join us in welcoming these artists and their works to Berlin for a first-of-its-kind exhibition in July 2023 to win over an international public to their cause.

Renate Künast, Member of the German Bundestag

"The people of Myanmar are fighting for democracy, for human rights, they are defending their lives. They are fighting against a military regime that does not accept an election and its result. And all this deserves our attention. With this exhibition, you will witness what artists are fighting for".
